How are Conflict, Peace, and Poverty Related?

Global Focus on Knowledge
2007/April/24

Yasunobu Sato

The University of Tokyo
Graduate School of Arts and Sciences
Graduate Program on Human Security

Human Security as a Bridge Concept Between Peace and Development

- Considering Conflicts in Development Assistance
- Peace-Building as applications of development assistance for recovery of conflicts and protection of conflicts
- There are mutual complementary concepts that Human Security proceeds from development to Peace, and Peace-Building is from Peace to development

Four Basic Theories of Peace-Building

- Theory of Governance on Conflict Management
- Theory of reducing factors on Conflicts
- Protection of Refugee, Theory of Humanitarian recovery support
- Theory of Human and Cultural development

Governance on Conflicts Management
Reduction on Conflicts Factors
Protection of Refugees
Economic/ Social development
Humanitarian/ Recovery Aid
Human Development
Cultural Development

Methodology：Peace-Building That is Learnt From Refugees

- Redefining of Refugees：Refugees from structural violence
- Database on Refugees: Accumulation of case studies
- Refugees as co-researchers- new research educational horizon

Redefining Refugees : Refugees From Structural Violence
